

Dr. Diana Driscoll, LEED AP, has found her passion in hotel development. As President and CEO of Ridgeline Hospitality, she is focused on developing new, up-scale, LEED certified hotels in the Southwest.

Prior to forming Ridgeline Hospitality, Dr. Driscoll developed and managed office and retail developments through Driscoll Realty Developments, Inc., acted as a Registered Investment Advisor in her own company - Professional Money Management, Inc. Additionally, she assisted doctors in medical practice appraisals and worked with professionals to bring buyers and sellers together, again through her entrepreneurial skills as CEO of Practice Dynamics, Inc. Until the formation of Ridgeline Hospitality, all of these endeavors were achieved while simultaneously practicing optometry, where she received numerous awards for excellence.

Philanthropy plays a large role in her work. She and her children have formed "Swings and Smiles" - a non-profit organization which constructs playgrounds in needy areas, and she is actively involved in The Ehlers-Danlos National Foundation (established to assist those with a rare genetic defect). She enjoys public speaking and can be found speaking about everything from medical conditions, to LEED developments and social networking!
